- 4.8" Widescreen high-brightness touch-screen with anti-glare1: This touch-screen display with Gesture Command gives you control via simple, on-screen finger movements. Commonly used commands such as 'take me home' may be accessed by gesturing an inverted 'V' on the screen versus paging through numerous menu screens.
- SiRF star III: Highly sensitive chipset which gives you fast, accurate positioning.
- Pre-Loaded Maps and Content: The NV-U84 comes pre-loaded with map content covering North America. Enjoy powerful, portable navigation out of the box.
- Photo Viewer: With imbedded Flash memory (2GB/2,000,000 bytes) you can view photos of people and places on the go, with Memory Stick Duo media™ (sold separately) upload what you want wherever you are.
- 2GB resident Flash memory: Store photo and video directly to your nav-u™ navigation system. Also perfect for a photo safari or family gathering on the road. Simply take your photos and review them right there in the car, this requires the use of Memory Stick Pro Duo™ media (sold separately).
- Super Suction Cup Mount: Using the Sony-unique Super Suction Cup, mounting a nav-u portable navigation system to either the dashboard, console, or windshield2 in virtually any vehicle is quick and easy. Stable and secure while driving, the nav-u portable navigation system can be easily removed whenever you want to take it with you.
- Dual View: Allows you to see the more detailed parts of your journey on one side of the display while keeping an eye on the big picture on the other side.
- TTS (Text to Speech): also eliminates second-guessing when making a turn; the device reads aloud street names for turn by turn directions to your destination.
